

Graphite Pencil – Cupcake drawing

Detailed step-by-step tutorial from Artist Brush Art school

- *9 Steps with detailed descriptions, comments and advice from the author.*
- *Videos on skills needed to complete this project.*
- *Printable subject matter attached.*

Graphite Pencil – Cupcake drawing

For this Fun drawing you will need to apply the skills I have taught you throughout our journey together. If you forgot some of the skills, we have learned don't stress too much – I made you videos on the skills you will need to be able to do this project.

HAVE FUN with this project and remember I am only a WhatsApp or Phone Call away and will be with you guys again shortly.

Skills you will need for this project

- You need to understand the Grid and be able to use it. (Video Available on our website under Enrolled students → Kids Corner → Cupcake Drawing)
- You will have to understand Shading and Value. (Video Available on our website under Enrolled students → Kids Corner → Cupcake Drawing)
- Enrolled Students Password: **abstudent01**
- You will have to be creative and just do your best.

Tips

- You will need to use the grid for this drawing
- Don't draw your drawing or your grid too hard as you would need to be able to erase if needed.

Supply list
<ul style="list-style-type: none">- 20cm x 20cm sketching paper/ normal printing paper- Printed out picture of the cupcake- 30cm ruler- Graphite pencil (B pencil)- Sharpener- Eraser- Colour pencils (you can make the stars and Smarties any colour of your choice)- paper towel/ blending stick for blending

Steps for this Tutorial

Step 1

Make sure you have all the supplies listed above ready and that you work on a flat surface.

Step 2

Draw the grid on your subject matter (printed out picture of the cupcake) – ONLY ON THE CUPCAKE NOT THE WHOLE A4 paper.

If you can't remember how to do the grid, please watch the video titled THE GRID on our website under the Enrolled Students tab.

Step 3

Now lightly draw the grid on your 20cm x 20cm piece of paper.

Step 4

Draw the cupcake inside the grid constantly referring back to your subject matter – this step will take at least 30min- 1 hour.

This is just the drawing and you don't have to do shading in this step - when you are happy with your basic drawing you can go to step 5.

Step 5

Now erase the grid – be careful to not erase your beautiful picture.

Step 6

Start with shading the cupcake with your graphite pencil – don't use the color pencils just yet.

If you can't remember how to do SHADING, please watch the video titled SHADING on our website under the Enrolled Students tab.

Step 7

Now you can finally add colour to your phenomenal drawing – you can make the smarties and stars any colour you would like them to be as long as you still remember to do shading with your colour pencils.

Step 8

Once you are happy with your beautiful drawing – make sure the background is clean by erasing any unwanted marks.

Step 9

Sign your drawing – give yourself a pat on the shoulder and please send me a picture of your drawing so I can post it on our BRAG BOARD!

I Hope you enjoyed this tutorial and that you are staying safe and keeping busy with loads of fun Art Activities.

I miss you all and can't wait to see you again soon.

**Lots of love,
Cindy**
